Money Easier and Accumulating.

The Foreign Advices Indicative of Steadiness.

Conflicting Reports Concerning the Bullion in the Bank of England.

THE DISCOUNT RATE UNCHANGED.

Opinion of the Banking Interest as to the Future of Money.

THE GOLD MARKET STEADY.

Recovery in Pacific Mail and an Advance in Harlem.

WALL STREET,
THURSDAY, May 15-6 P. M. }
On 'Change to-day cotton was quiet, with "spot' ruling steady and "futures" 1-16c. per lb. higher. Flour was in good demand and steady. Wheat was scarce and firm, and corn was about steady. THE GOVERNMENT GOLD SALE.

There were twenty-one bids for the government gold sold to-day at the Sub-Treasury, amounting in the aggregate to \$3,315,000, at prices ranging from 117.23 to 117.71. Secretary Richardson awarded million of the gold thus bid for at from 117.63 THE FOREIGN MARKET.

Notwithstanding the reduction in the balance account of the Bank of England by £499,000 for the week, consols and American securities remained steady and unchanged. Erie was a shade better and quieter. Despatches from Paris report a decrease of 750,000 francs in the weekly bullion report of the Bank of France, which fact accounts for a decline in rentes from 54.65 to 54.30. The new French loan in London was steady at 2½ premium. The cable despatches are conflicting with reference to the loss in the bullion of the Bank of England, and we therefore only give the outside figure. The smaller amount mentioned in these reports was £111,000, which some parties are inclined to think represents the correct amount, for the reason that there has been no change in the discount rate. THE MONEY MARKET.

Money was easier than upon yesterday, a numher of brokers reporting the offer by several banks and public institutions of liberally large sums for employment on call. The rate among the stockbrokers was 6 a 7 per cent, with the bulk of the business at the higher rate. Money on government collaterals was readily accessible at 6 per cent. It is the prevailing opinion of the street that tdle capital is rapidly accumulating at this centre, and many of the bankers express the belief that the immediate future offers no contingency likely to disturb the existing condition of affairs. There were exceptional transactions during the day even as low as 4 per cent, but the closing dealings were at 6 per cent. Discounts were steady, without change from previous quotations. The foreign exchange market was firm for sight sterling at 110, and about steady for 60 day bills, the difference in actual business between the two classes being one and one-quarter per cent. A despatch from Cin-cinnati, from W. P. Hulberd, assignee of A. G-Burt & Co., whose suspension has been announced, states that the liabilities of the firm are \$81,000, and if they are not pressed their assets in cash, personal and real estate, will pay in full, otherwise they cannot pay over seventy-five per cent. He also alleges that they will be able to raise the assignments inside of twenty days and resume busi-

GOLD STEADY—117% A 117%.

The gold market reflected the steadiness of the foreign market already adverted to, to-day's fluctuations having been but slight and indicative of firmness. The Sub-Treasury paid out \$228,000 on account of interest and \$7,700 on account of call bonds. The steamship Thuringia, which sailed for Europe to-day, took out \$160,000 in silver. The Washington advices report an increase since yes.

terday of \$49,000 in the legal tenders. The fluctuations in gold during the day were as follows:—

SOUTHERN SECURITIES. The Southern State bonds were dull and steady. except for the Tennessees, which were weak for the new, with a decline to \$1, the old issues being anchanged. The new South Carolinas declined to 46 a 16%. The following were the closing quotations:-Tennessee, ex coupon, 81% a 81%; 10., new, 80% a 81; Virginia, ex coupon, 43 a 47; 30., registered stock, old, 36 a 40; do. sixes, consolidated bonds, 52), a 53; do. sixes, deferred scrip, ## 36., registered stock, old, 36 a 40; do. sixes, consolidated bonds, 52½ a 55; do. sixes, deferred scrip, 12½ a 13; Georgia sixes, 80 a 85; do. sevens, 90½ a 20 Az Coal. 22 New Cent Carolina, ex coupon, 27½ a 29; do. 50 Sorth Carolina Railroad, 50 a 60; do., funded, 1866, 47 a 20; do. do., 1868, 17 a 20; do., new, 16 a 17; do. 50 do. 55 do. 50 do.

STOCKS FIRMER. The market opened with some little hesitation this morning, C., C. and I. C. showing a further de-cine of ½ per cent and Pacific Mail at the same time falling of % per cent. At the call, however, a rally occurred in favor of the latter, and the price advancing 2 per cent to 48% gave the cue to the general current of the day's business. The whole market thereupon recovered and advance beyond the opening prices. It closed with the retention, more or less, of the im-provement. The broader fluctuation of the day was in Harlem, which rose from 127 to 130 thus overshadowing the recent prominence of Pacific Mail, although the activity of the latter wa still the leading feature of the market. Concerning the rise in Harlem, when it is considered that the road is leased permanently to the New York Central at a fixed annual rental of 8 per cent, may not seem strange if this sudden gain of five of six per cent within a few days be ascribed t a prospect of better earnings on the cit calculated to raise the dividend to a sum that wi justify the 130 per cent as a principal. With reference also to Pacific Mail, there is unquestionable in Wall street a large class of believers in its stock at 50 per cent, besides which the fall of the stock to this and lower figures has facilitated the excution of a great many orders to cover out standing speculative sales. Hence, from either of these causes it was natural that th decline should be checked and a reaction take place. It was observable that there was less of sympathy between Pacific Mail and the general market during the day; in fact, the immediat whim of the street, being rather "bullish," too sides with Western Union Telegraph. The re-ported heavy loss in the specie of the Bank of Eng land took away some of the day's advance, an created more or less of depression, yet did not prevent the maintenance of steady tone at the close. In truth, there is growing feeling among the solid men of the stree that too much importance has been attached the influence of fluctuations on the other side the water, especially on the Continent. There may be occasions, though few in number, when a montary crisis in the Bank of England will affect th coin of America, but there seems to be no very co gent reason why an increase or diminution bullion three thousand miles away should be allowed to affect the value of our rai road securities, which depend almost solel upon local causes and have no sort of relationship to any external combinations. It is chiefly within the last few days that the influence of a foreign "flurry" has been so noticeably felt in the stoc market, and it is the general impression that i allowing this influence quite too much deference is paid to "the Old Lady of Threadneedle street." The announcement is made that the New York Central Railroad Company have paid \$500,000 towards the settlement of the claim of the United States for taxes upon the scrip dividend. The Adams Express Company announce a quarterly dividend of two per cent, payable on the 2d of June, the transfers closing on the 20th of May. Boston, Hartford and Erie sold at 2%.

COMMERCIAL REPORT.

Cotton Quiet; Receipts at the Port 6,532 Bales-Flour Firm-Wheat Scarce-Corn Steadler-Oats Unchanged-Pork Nominal-Lard a Shade Better-Grocerics Quiet-Petroleum Active and Lower - Naval Stores Quiet and Steady-Whiskey Steady. THURSDAY, May 15-6 P. M.

The movement in general merchandise was rather slow, and there were but lew exceptions to the rule. Cotton remained dull. At the Produce Exchange the movement in breadstuffs was slow, owing to the small supplies on the market. There was a lair inquiry for future delivery, both for flour and wheat, but transactions were impeded by the extraordinary high rates of freight demanded-Still there were sales of flour ahead at full prices. Wheat was quiet, nothing but common being of-fered, and as there was no good Spring, to mix with it comparatively little was done, and nearly all the business was in car lots. Corn was in better request for export, and business was fair at about steady prices. Oats were steady. There was but little movement in provisions, there being an essential difference between the views of buyers and seliers. Freights were decidedly firmer and grain rates were higher, while for the future phia. Naval stores remained quiet, and not essentially

descriptions. We have only to note a sale of 503 bags ex Merrimac, on private terms, We quote:—Rio—Ordinary cargoes, 1734c. a 1734c.: fair cargoes, 1834c. a 1834c.; good cargoes, 1834c. a 19c.; prime cargoes, 1934c. a 1934c.; extreme range for lots, 1734c. a 1934c., gold, per lb., 60 a 90 days' credit; Java, government bags, 20c. a 21c.; do. The Proposed Industrial Exposition-An Appropriation of \$2,500,000 Asked from the City-Why Not Place the Crystal Palace in the Central Park? Dull trade is about the only news to report from

REAL ESTATE MATTERS.

Pine street and vicinity, where real estate business is mainly transacted. At the Exchange there was an attempt at one sale, but even that fell through. No doubt the exertions used the day previous at the disposal of the Tweed and Roche property were too much for purchasers, and in consequence their energies for further speculations A UGUST BELMONT & CO.,
Bankers, 19 and 21 Nassau street,
asme Travellers' Credits, available in all parts of the
world, through the
Messra, DE ROTHSCHILD were exhausted.

Yet the brokers say that business is very active, inquiries after property very brisk, prices stiff and holders unreasonably independent. While there are plenty of purchasers, sellers make no effort to meet them half ways. We have heard of several transactions; but, as the parties desire the particulars to be kept quiet for the present, we respect their request. The following private sales were reported to us yesterday:-

Seven three story orown stone houses, 20x45x100, on Fifth street, Brooklyn, for \$107,700. Also 15 Tompkins place. Brooklyn, three story brick, 24x50x112.6, for \$14,000.

One lot on the Grand Boulevard, east side, 77 feet 2 inches north of Eighty-first street, size 25x94, for \$15,500.

THE CONTEMPLATED INDUSTRIAL EXPOSITION.

Latterly a great deal of discussion has been had in real estate and other circles about the

Latterly a great deal of discussion has been had in real estate and other circles about the Industrial Exposition which is proposed to be built on the grounds now known as the National Cattle Yard, occupying four blocks of ground, from Ninety-seventh to lo2d street and Third and Fourth avenues. A bill in the Legislature to authorize the corporation of the city of New York to raise and ioan \$2,500,000 is about becoming a law.

The terms of this appropriation are to the effect that the lean is to be secured by a mortgage on the property, which is only so far secured on an "option." The full particulars of this purchase we published last February, when the completion of the contract should have been effected, but, for want of funds, was indefinitely postponed.

A wolld's Falls for New York city, one worthy of the great wealth, dignity and importance of the mighty metropolis of the Western Hemisphere, is what every American citizen earnestly advocates; but the project must be carried out on a scale commensurate with our position. To place a magnificent structure on the spot designated for the purpose fails of the Intent and can only tend at the outset to benefit a little of the contiguous property, and more so the Third and Fourth Avenue railroads. If we are to have a grand Crystal Palace, and, moreover, tax the city for a large portion of the expenditure, and then help to bay for the ground itself, let the city at once furnish the plot free of cost and father the whole thing. In 1852, when the establishment of our present popular and elegant Central Park was discussed in the Common Council, it was understood that a sufficient space fronting Fifty-ninth street, say between Sixth and Seventh avenues, is admirably calculated therefor, and would not be missed; on the contrary, such an edifice would be missed; on the contrary, such an edifice would be missed; on the contrary, such an edifice would be missed; on the contrary such an edifice would be missed; on the contrary such an edifice would be madelined by the contr MONEY TO LOAN-ON CITY PROPERTY, IN SUMS to suit, for three years. Mortgages purchased. BU-FUS K. McHARG, 77 Cedar street, Notary and Commis-sioner for every State. MONEY BROKERS AND DEALERS IN BONDS AND mortgages are hereby cantioned against negotiating or taking a Bond and Mortgage made by Alfred Uphum to Juliet Corson for \$12,500, dated April 24, 1873, on a lot of land on the northerly side of Fourth Street, city of New York, 114 feet westerly from the Bowery, as said Bond and Mortgage were obtained by fraud, are entirely without consideration, and will not be paid. WANTED-SECOND MORTGAGE FOR \$5,000 OR \$6,000, on city improved property; money at once. Principals only need apply, with papers.

W. D. & F. BARTLES, 56 Wall street.

Paiace be permanently sustained in the Central Park and remain as a leature for an indefinite period to come.

Strangers visiting this city are attracted to the Central Park, and in such a locality they expect GREAT PEATURES OF ENTERPRISE.

If the city government will not furnish sufficient means to erect the building, let contributions be solicited through the Chamber of Commerce and our trades' unions, and the project will be assisted along so rapidly that a very short time will witness its completion. But to erect a magnificent edifice of the kind in an out-of-the-way locality must prove a failure, and, in such an event, what return has the city for the outlay requested? We must have a world's fair here in New York, and it becomes our duty to select for the location a site worthy of the enterprise.

The property on Third avenue, independent of being out of the way, is wholly unfitted for the purpose. The outlay for levelling the same, blasting rocks and for raising the sunken ground would be more than the original cost of the plot, whereas in the Central Park the ground devoted to this purpose is ready for the builder as soon as the work requires the undertaking.

The rapid transit scheme to be undertaken by the city has by no means been abandoned, and the promoters have only kept quiet in order te learn whether the other projects now on foot will be carried out. A meeting of uptown property owners, independent of locality, will be held at the office of Mr. John McClave at three o'clock to-morrow afternoon to adopt some effective measures in furthering this much needed improvement.

A STOCK-JOBBING FRAUD.

DE GARMENDIA, 20 German street, Baltmore, Md. ing their body sign a pledge to abstain from the use of all intoxicating liquors, but they have not yet been successful in this matter. The orsub-organizations in the United States and Canada, and it may therefore be considered of an international character. It is not a secret society, said Mr. Wilson, and they were willing to submit the handbook of rules of the society to inspection of the companies. Mr. Wilson denied that they had any secret object whatever, or that there was any rule not to associate with men who went to work during the strike of the engineers. Should a member negiect his family, become a drunkard, or injure willfully the property of the railroad company by which he was employed, or be guilty of any other misconduct, he was liable to be expelled from the society and his name stricken off its rolls. Alluding to the important question of strikes, Mr. Wilson spoke of the recent strike on the St. Louis. Kansas City and Northern Railway, and stated that only four men had been proved guilty of doing anything wrong in getting in the strike, and that, on hearing of the trouble, he had telegraphed to their division lodge that the men, if they wanted to be sustained by the organization, must abide by its laws. With reference to making a demand on a railway company the men would not be sustained or supported in a strike unless a majority of the sub-divisions were of opinion that the strike was legitimate and justifiable. Mr. Wilson said he made these explanations to clear away ally misunderstanding which might exist as to the objects of the organization. Their real and whole object is to educate and afford greater facilities for employment to members. Mr. Wilson then maintained that he railroad officials should not be in antagonism to their engineers, as all their members are obliged of necessity to be sober and competent. He hoped, in conclusion, that the Railroad Association would demand that each locomotive engineer should sign a temperance piedge when he entered the service of a railroad competent. He hoped, in conclusion, that the Railroad Association would demand that each locomotive engineer should sign a temperance piedge when he entered the service of a railroad company. Of course, continued the speaker, railway managers want m Mr. Wilson, and they were willing to submit the handbook of rules of the society to inspection of WANTED TO PURCHASE—A LARGE STEAM Yacht Address, with price and particulars, J., box 434 Post office.
